

## How to Use Your Winner Designs Microwave Bag for Potatoes, Corn, etc.

Want the best tasting – and fastest - baked potatoes or corn on the cob around? This Microwave Bag is for you~ Make perfect potatoes (sweet potatoes, too!), corn, rolls, steamed veggies (and more).

The combination of 100% cotton batting and steam makes everything just right!

### Microwave Bags have been around for years and are safe when you follow these simple rules.

- Do not place bag in microwave without food inside.
- Do not use in a microwave that does not rotate.
- Do not let bag touch the sides of your microwave.
- Do not leave microwave unattended while cooking.
- Microwave in 2-minute intervals for no more than 10 minutes.
- In between intervals, you might want to flip bag over or give it a moment.
- Do not use in your oven or toaster oven.
- Bags can be placed in the washer & dryer but I like to air-dry mine.
- Avoid fabric softeners, dryer sheets, spray starch, chemicals.

### Microwave Instructions:

1. Prick or don't prick your potatoes. It's up to you... For corn, remove husks.
2. Wash and dry items. Coat with sea salt, coarse salt or other seasonings now or wait till later.
3. If you've added seasoning, wrap each item in a paper towel.
4. Fold flap back, place in bag then fold flap down. Bag holds 3 large potatoes or 4 ears of corn, depending on size.
5. Bake at 2-minute intervals. (I do 4 ears of corn at 8 minutes and stay nearby.)
6. There will be lots of steam so use caution. Use the fabric handle to remove from the microwave.
7. Set aside for a minute before carefully folding flap back. Use caution when removing from bag.
8. You know potatoes are done when you squeeze them and they easily bloom!
9. Add favorite toppings and enjoy.
10. Bag will be moist, even damp, so leave it out where it can air dry. Wash as needed.

***Remember - common sense and a watchful eye make all of the difference!***

### Suggested Cooking Times:

2-4 Potatoes:	6-10 minutes (cook at 2-minute intervals)
Sweet Potatoes:	up to 10 minutes (cook at 2-minute intervals)
2-3 Lg Ears of Corn:	6 minutes (cook at 2-minute intervals)
Baked Goods, Rolls,	Times vary. Try 20 -30 seconds; never more than 2 minutes.
Small Tortillas:	Otherwise, they will become hard.
